1/19/2005

Replace the first paragraph on page 1 of the specification with the following replacement paragraph:

The present application ~~claims the benefit~~ is a continuation of International Application PCT/FR00/00367 filed February 15, 2000, which claims priority to ~~and~~ French patent Application FR99/01999, filed February 18, 1999, the disclosures of both of which are hereby incorporated by reference.

After line 12 on page 4 of the specification, insert the following replacement paragraph(s):

BRIEF DESCRIPTION OF THE DRAWINGS

Fig. 1 shows the effect of the support for the catalytic elimination of N₂O.

Fig. 2a shows the influence of the presence of NH₃ on the catalytic elimination of N₂O in the presence of 3% O₂.

Fig. 2b1 shows the influence of the NH₃ content on the SCR of N₂O + NO: Effect on the NO conversion of N₂O.

Fig. 2b2 shows the influence of the NH₃ content on the SCR of N₂O + NO: Effect on NO conversion.

Fig. 3a shows the SCR of N₂O by NH₃ (2000 ppm/2000 ppm) in the presence of 3% O₂.

Fig. 3b shows the influence of iron content on the catalytic elimination of NO by NH₃.

Fig. 3c shows the simultaneous elimination of NO and N₂O on FeBEA.

Fig. 4 shows the influence of the preparation method on SCR of N₂O + NO.
